Preface

GK Bytes is a series of general knowledge books that are fountain head of knowledge for the children of class 1 to 8.

This series is as much about asking the right questions as it is finding out the right answer. It is about going beyond a few select subjects, and becoming more aware of the world around us, nothing things that are new, and changing, sharpening and feeding our curiosity, and learning to get to the bottom of things. Only a questioning mind can become a truly knowledgeable one.

Some of the features of this series are :

- New contents at each level are the extension of the class curriculum, with varying degrees of challenge, interest and colour.:
- Smooth and gently progressive gradation of contents.:
- New activities to encourage individual and group tasks.:
- Enhance language skills.

All in all, the new edition ensures that learning comes about at the initiative of the learner. It does this in a way that interactively and excitingly imparts information and knowledge which is closely related to the interests, the experience, the life and world of the child.

In 1972 Pioneer 10 was the fastest craft ever launched into space. It left Earth at more than 51,000 km/h on its mission to the outer planets. In 1983 it became the first human made object to leave the solar system, and it is now more than 11 billion km away.

Saturn is the second biggest gas giant. This planet's rings are one of the most spectacular sights in the solar systems.

Measuring 270,000 km from edge to edge, they are made up of millions of whirling blocks of ice. Saturn spins almost as fast as Jupiter and is colder and even windier, with storm winds ten times faster than a hurricane on earth.

A black hole is all that remains of a collapsed star. You cannot see a black hole. It has such a powerful gravitational pull that not even light can escape from it, so it is invisible. The black hole sucks huge amount of space matter into a tiny space, making it unbelievably dense a bit like if Earth was squeezed to the size of a marble.

Kabaddi : Two teams of seven players occupy opposite halves of a field of 12 m × 10 m. Each team has five additional players that are held in reserve. The team take turns sending a raider across to the opposite team's half, where the goal is to tag or wrestle (capture) members of the opposite team before returning to the home half. Tagged members are out and sent off the field. The raider must not take a breath during the said and must prove it by constantly chanting during the raid. The chant word is Kabaddi in India and Pakistan, hadudu in Bangladesh, Do-do in Nepal etc.
